PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building responsive web applications and RESTful APIs using React.js, Next.js, Node.js, Express.js, MongoDB, Supabase PostgreSQL, and modern JavaScript/TypeScript. Skilled in authentication, role-based access control, CRUD workflows, relational data modeling, API integration, Git/GitHub collaboration, and cloud deployment. Focused on maintainable code, usable interfaces, and end-to-end delivery.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
Frontend: React.js, Next.js, Redux Toolkit, Vite, Tailwind CSS, Bootstrap, responsive design, accessibility
Backend: Node.js, Express.js, REST APIs, authentication, JWT, role-based authorization, CRUD operations, Gmail Enquiry / Nodemailer Automation
Databases: MongoDB, Mongoose, Supabase PostgreSQL, Row Level Security (RLS)
Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Supabase, FormSubmit, Razorpay Payment Gateway, Gmail API
AI Development Tools: Google AI Studio, Codex, Antigravity

PROFESSIONAL EXPERIENCE

MERN Stack Developer Intern | S O INFOTECH (P) LTD. **6 Months**

- Contributed to ShopMart, a full-stack MERN e-commerce application, by developing responsive React interfaces and reusable UI components.
- Built and integrated RESTful APIs with Node.js and Express.js for products, categories, users, authentication, and cart workflows.
- Integrated MongoDB through Mongoose and implemented CRUD operations, API data handling, and frontend-backend integration.
- Used Git and GitHub for version control, collaboration, debugging, and iterative feature delivery.

Full Stack Developer | Freelance / Personal Projects

- Built and deployed full-stack applications end to end, including frontend interfaces, Express REST APIs, authentication, database integration, testing, Git workflows, and cloud deployment.

SELECTED PROJECTS

AShK Stays & Studios — Boutique E-Commerce & Hospitality Platform

React, TypeScript, Vite, Tailwind CSS, Express.js, Razorpay API, Gmail Enquiry / Nodemailer, Vercel

- Built and deployed a full-stack boutique e-commerce and property advisory platform featuring dynamic curated collections, interactive suite tours, cart drawer management, and responsive UI.
- Integrated Razorpay payment gateway supporting domestic UPI, Netbanking, and debit/credit cards with secure cryptographic signature verification, server-side price reconciliation, and order tracking.
- Engineered an automated Gmail enquiry and consultation booking pipeline with server-side validation, rate-limiting, honeypot spam protection, and real-time customer notifications.
- Configured responsive, accessible design with Tailwind CSS, client-side routing, and Vercel serverless deployment.

OpsPilot — Business Operations & Help Desk SaaS

React, Vite, JavaScript, Express.js, Supabase PostgreSQL/Auth, RLS, REST APIs, Vercel, Render

- Built a role-aware internal help desk SaaS for admins, agents, and employees, including ticket lifecycle workflows, comments, assignment, dashboard analytics, and CSV export.
- Implemented Supabase Auth, PostgreSQL foreign keys and RLS, Express business logic, notifications, due-date jobs, responsive UI, and deployment-ready configuration.

Krefzo Automation Website

Next.js, TypeScript, React, Tailwind CSS, Lucide, Vercel, FormSubmit

- Built and deployed a conversion-focused AI automation services website for lead generation and discovery-call bookings.
- Created responsive service, case study, FAQ, and contact flows with SEO metadata, Open Graph tags, JSON-LD schema, and reduced-motion support.

GitHub: github.com/Ashish2614/automation_website | Live: automation-website-gray.vercel.app

HueCraft — Color Palette Generator

React, Vite, JavaScript, CSS, Browser APIs

- Built a responsive color tool with harmony modes, locked colors, HEX editing, clipboard actions, shareable URLs, exports, favorites, and recent history.
- Added dark mode, keyboard generation, accessibility, searchable FAQ guidance, and local-storage fallbacks.

GitHub: github.com/Ashish2614/Color_Palette_Generator | Live: color-palette-generator-seven-rosy.vercel.app

ShopMart — E-commerce Application

React.js, Node.js, Express.js, MongoDB, Mongoose

- Developed product browsing, search, filtering, cart management, admin workflows, REST APIs, and MongoDB data models for products, categories, users, and authentication.

Devbhoomi Trails — Himalayan Travel Platform

React, Vite, JavaScript, Tailwind CSS, Supabase, Lucide React, Vercel

- Built and deployed a responsive travel platform for Himachal Pradesh and Uttarakhand with destination discovery, seasonal packages, itinerary modals, FAQs, and guided tour flows.
- Implemented a custom trip cost calculator, Supabase-backed booking and inquiry forms, WhatsApp booking handoff, responsive accessibility, and reusable component-driven UI.

  GitHub: github.com/Ashish2614/DevbhoomiTrails | Live: devbhoomi-trails.vercel.app

Global Vista — Country Explorer

React, Vite, JavaScript, REST Countries API, Wikimedia Commons, OpenStreetMap, Vercel

- Built a responsive country discovery platform with live search, flags, maps, favorites, time zones, languages, administrative divisions, and tourist places with real photographs.
- Implemented dark/light themes, accessible UI, animated profile sections, API fallbacks, live clocks, state/province search, and lazy-loaded destination imagery.

  GitHub: github.com/Ashish2614/Global_Vista | Live: vercel.com/ak-b08e/global-vista

HireFlow — Applicant Tracking System

React, Vite, JavaScript, Express.js, PostgreSQL-ready API, Vercel, Render

- Built a responsive recruitment SaaS interface for job discovery, recruiter dashboards, candidate applications, pipeline stages, interviews, notifications, and analytics.
- Implemented dark/light themes, timezone-aware recruiter greetings, responsive navigation, REST API foundations, SPA routing, and deployment-ready Vercel and Render configuration.

  GitHub: github.com/Ashish2614/HireFlow | Frontend: hire-flow-fawn-theta.vercel.app | Backend: hireflow-ddzt.onrender.com

ADDITIONAL STRENGTHS

Responsive web development | Component-driven architecture | API integration | Debugging and problem solving | Version control | AI-assisted development | Clean, maintainable code

EDUCATION

- **B.Tech in Electrical and Electronics Engineering** | Sharda University | 2020 | CGPA: 8.4
- **M.A. in Public Administration** | IGNOU | 2021-2024
